

Our Success Stories

"Very excellent service overall. I would recommend BeyondFaith to anyone in need of a healthcare agency. Thank you for being there for me and my family."

Noah White — Rockwall, TX

"I don't believe that I would be here today if it weren't for the terrific care that I have received from BeyondFaith. The nurses and aides have always treated me like family. The physical therapist has worked miracles for me in my recovery process. I would recommend BeyondFaith to all of my friends and family...Their love and support made all the difference in the world."

C. G. Brown — Terrell, TX

"My experience with BeyondFaith Homecare has been excellent. My needs have been met above and beyond what I had expected. The nurses and aides are very attentive to my care. I trust them totally with my care. The physical therapist has helped me to get about more than I have done before. I would recommend them to anybody that asks me. I really think they care for me, and show that they have love and compassion for everyone."

Rachel Oneal — Terrell, TX

Our Services

BeyondFaith provides a variety of services, including skilled nursing, therapy services, social services and personal care services.

Whether you live at home, in an apartment, or at a retirement center, our services can be tailored to your individual needs.

Skilled Nursing Care

May include but is not limited to:

- Assessment of Condition
- Nutritional Support
- Diabetic Management
- Medication Teaching
- Ostomy Care
- Rehabilitation
- Infusion Therapy
- Pain Management
- Enteral Therapy
- Patient Education
- Injections
- Wound Care

Home Health Aides

At BeyondFaith, we are committed to providing you with the quality care you deserve in the privacy of your home. All of our Home Health Aides are state licensed and CPR certified. For your safety, all of our employees have successfully completed a criminal background check.

Medical Social Worker Services

- Counseling and coordination of community and financial resources
- Coping, social, and emotional problems that often accompany illness

Therapy Services

PHYSICAL THERAPY: evaluation, direct care, exercise instruction, preparation for upcoming orthopedic surgeries, improve strength, balance, walking and other mobility skills

OCCUPATIONAL THERAPY: evaluation, direct care, improve independence with preparing meals, bathing, dressing, toileting and other activities of daily living

SPEECH THERAPY: assist in learning techniques to improve your memory, speech and ability to swallow

STAR or Safe Tele-monitored Accelerated Rehab is recommended for the patient that is considered to be at a higher risk during therapy. Whether it's physical or occupational therapy, our STAR Therapy program allows the therapist, while in the patient's home, to be in constant communication with our STAR Cardiac Nurse, who is at the agency monitoring the patient's heart rhythm, blood pressure and oxygen saturation during each session. It provides a safer environment and closer evaluation of the patient during therapy. We are the only home health agency in Texas to offer this technology. (This specialty program is not available in every area we are licensed to serve).

Medical Equipment & Supplies

BeyondFaith can assist in the arrangement of supplies and equipment required to meet the patient's individual medical needs.

Specialty Services

WEB NURSE AT HOME:

This provides daily monitoring of the patients' weight, blood pressure, blood sugar and more. The information is stored on line and is available to the patient, his/her family (even if the family lives a long distance from their loved one on service), and the physician.

ANODYNE THERAPY:

Infrared light therapy relieves the painful, stinging symptoms associated with Peripheral Neuropathy (both diabetic and non-diabetic). There are many individuals who are so thankful that BeyondFaith Homecare offers this service!

WALKING TALL FALL PREVENTION:

BeyondFaith Homecare can screen for and determine the level of risk an individual may have for falls/balance issues! Balance issues can be the result of the onset of some diseases. A specific program can be designed to meet the needs of those who are experiencing balance/fall issues.

ON TIME EVERY TIME MEDICATION PROGRAM:

An electronic pill box can be set up to remind the patient to take their medication up to 4 times per day! If the patient does not take their medications, BeyondFaith is notified, and the patient is checked on!

WOUND CARE CERTIFIED NURSE:

Our wound care specialist will provide in home evaluation of wounds so a plan of treatment can be developed with your physician. We specialize in chronic/non-healing wounds utilizing various treatment modalities including Wound VAC, Anodyne, and various topical treatments.

DIABETES EDUCATION:

A Registered Nurse can come to your home and provide teaching on how to manage your diabetes.

VITALSTEM THERAPY:

A safe and effective treatment for patients suffering with difficulty swallowing or dysphagia. VitalStim Therapy is a non-invasive therapy that uses specifically designed electrodes applied to the muscles of the throat to promote proper swallowing.
